

Please replace the section title between the third and fourth paragraphs on the second page with the following rewritten version:

A3 -- SUMMARY OF THE INVENTION --.

Please replace the fourth paragraph on the second page with the following rewritten version:

A4 --The present invention provides a method of manufacturing a hood which obviates the drawbacks inherent in hoods according to prior art technology, and in particular improves the sound-suppression capability of the hood. The present invention further provides extremely rational production of hoods, at the same time as these can be given an extremely aesthetically attractive appearance.--

Please replace the fifth paragraph on the second page with the following rewritten version:

A5 --The present invention also obviates the drawbacks inherent in prior art designs and constructions, and in particular improves the sound-suppression capability of the hood. Finally, the present invention provides a the hood such that it may be manufactured economically and rationally in large series and that it may be given an aesthetically attractive exterior.--

Please delete the section title after the last complete paragraph on the second page.

Please replace the last paragraph on page 2 which continues onto page 3, with the following rewritten version:

A6 -- More specifically, the invention provides a hood that is injection moulded to one single continuous piece using plastic materials with different properties in at least one respect.--

Please replace the section title beginning at line 18 on the third page with the following:

A7 --BRIEF DESCRIPTION OF THE DRAWINGS--.
